A serious accident occurred at 6 o'clock yesterday morning at the Riverside steel works, at Benwood. The head of a blast blew off, injuring two men, James Garrity had ill his clothes torn off, and received internal injuries the exact extent of which cannot be told. He bled freely from the mouth and nostrils. Bond's clothing was also torn somewhat, and his left eye painfully hurt. Dr. Ford attended to the men's injuries, and late yesterday afternoon they were reported as resting as seasily as could be expected under the circumstances.

The cases of Jennie Randall and Bunt Sheeky, charged jointly with living together in improper relations, and the woman separately with keeping a house of ill fame, were heard by Squire Arkle last evening, Col. Arnett appearing for the defendants. The evidence was of that kind commonly called "rich, rare and racy," but the general public was shot out of the court room. The woman was remanded to jail in default of a fine of \$20 and costs on the joint charge and \$200 bail on the separate one. Sheekey was fixed \$20 and costs, but took an appeal to the Circuit Court and gave bond in the sum of \$50. Mrs. Randall then saked for warrants for two of the witnesses, girls who testified that they had visited her house for improper purposes, but changed her mind before the warrants were ready, and dropped the matter.

The Library Association and the Ladies' Aid Society have joined their forces to get up some attractive amusements for the winter. On Friday evening they will have a pronouncing school at the M.E. church. The captains, Albert Harris and T. A. Scott, have each chosen a number of ladies and gentlemen who have agreed to pronounce. Miss Crumbacker is making out a ligit of words and will act as judge. Professor Charles R. Shreve will serve as umpire and Rev. Messrs. Holtz and Walker as referees. Everybody is talking of the pronouncing school, and there Mr. Tracy called for the reports from the Gas Trustees. There were two of them on the President's desk, both sealed. One was from Messrs. Rolf and Seeley, who nominated Hon. B. L. Butcher as who nominated Hon. B. L. Butcher as Secretary, Mr. Harry C. Francheim as Assistant, and Mr. Jonas C. Picket as Collector. The other was from Mr. Jepson, the other Trustee. His appointments were as follows: Mr. George Heil as Secretary, Mr. Harry C. Franzheim as Assistant, and Mr. Samuel Faris as Collector. The majority asked Council not to introduce a "boycott" against citizens not born in this city by again refusing to confirm Mr. Butcher. They were of the opinion that such a narrow, ill-advised, un-American idea was not characteristic of Wheeling people and did not represent their sentiments.

MR. JEPSON AGAIN PROTESTS

Mr. Jepson in his communication in addition to his former protests said: "I submit for your careful consideration these questions: Shall Mr. Heil after five years of service be thus summarily 'thrown overboard' for having the courage, under threats of dismissal to declare himself, an applicant for the first place in the office? And shall Mr. Faris be cast adrift because he is seven fertunate as to be honest, efficient and conscientious?"

He deplored what he termed the methods of intimidation practiced upon Mr. Heil. Monday night in spite of the bad weather.

Clara Morris this Evening.

This evening at the Opera House the mass of Wheeling theatre goers will have the first opportunity of their lives to see the leading emotional actress of the day, Miss Clara Morris, in a dramatization of Wilkie Colline' novel, "The New Magdalen." Miss Morris takes the role of Mercy Herrick, which gives fine play for her talent as an interpreter of the emotions. The Mary Magdalen of Scripture, who, under the purifying influences of the personal presence and society of the "lowly Nazarene," developed from a "fallen woman" into one of the sweetest female characters in biblical history, illustrates in her life the grand "argument" of the whole piece. Both play and star should have strong attractions for the public here, and in spite of the increased prices it is reasonable to expect a good house this eyening. Thanksgiving Dinner.

Revival of the Business Outlook Southward. A Beautiful Store.

On Monday a new establishment was opened in this city which is a credit to Wheeling, and will compare favorably with the inse metropolitian stores of the kind. Mr. Christian Schnepi, the well known and old established druggist, having moved into his new room on the corner of Fourteenth and Market atreets, in the new Reilly block, and fitted the interior up with a splendor and neatness comporting with the style of the building, opened what all will admit is the finest drug store of which the city can bosst. Such an establishment adds to the fame of a city, and Mr. Schnepf deserves substantial encouragement for the liberality and isste he has displayed in fitting up his new quarters. Of course nothing of his old reliability is sacrificed by the change. A Beautiful Store, Revival of the Business Outlook Southward.

HELP FROM THE EAST.

A little child of Mrs. Shaney, a sister of Katie St. John, who dropped dead in the rink at Bellaire, died suddenly of heart disease in Benwood Saturday evening, and was buried Monday.

The Sheriff on Monday sold at public sale the Rush Run coal works, situated at Western nailers in the strike, sending Rush Run, Jefferson county, olio, for them money liberally to enable them to remain firm in their demand for the 21.

It was also asserted that the cent scale. It was also asserted that the Eastern mill owners have agreed to continue the contributions till the strike ends one way or the other. This action, it is said, accounts for the promptness with which the manufacturers of nails in the East granted the advance asked by their nailers. The Eastern nailers, too, according to the same authorities, are making weekly payments, and all the striking nail-ers in the Western districts feel very much

ers in the Western districts feel very much encouraged by the outlook. The Times quotes a nailer's reply to a question as to what there was in the rumor: "I think it is straight. I know that a delegation was sent from Wheeling to visit the Eastern manufacturers on some business, Gen. Beaver, who has an interest in the Bellefonte factory, being among them. He returned to Wheeling towards the end of last week, and just about that time there was a good deal of money flying about among the nailers there. Besides that, it is to the interest of the Eastern manufacturers for us to win this tern manufacturers for us to win this strike, for if we lost it they would be entirely driven from the market. On the other hand, the longer the strike lasts the better it is for the Eastern manufacturers, or they are getting all the trade and good

THE WHY AND WHEREYOBE. The Commercial Gazette, speaking on the same subject, says: "The Eastern manufacturers see ruin staring them in the face if the nail operators of the West are able to force the 17-cent scale on the nailers; their trade is gone and they must shut up their mills. There has never been much their mills. There has never been much love, anyhow, between the Eastern and the Western manufacturers of either iron or nails, and at nearly any time they have been commercially willing to cut each others' throats." The same paper asothers' throats." The same paper asserts that a certain sum was agreed upon

the middle of August the Nailers' Asso-ciation, through its proper officials, has ciation, through its proper officials, has been paying out money, not so much for the support of its members as for the feeders who have been thrown on their hands. Since last Tuesday alone they have paid out over \$1,500, and, notwithstanding such drains on their treasury, the balance to their credit is said to be very large and growing larger each day. The great drain is on account of supporting the feeders, there having been applications for help from only three nailers in the city. "All the nailers at work in this district are also sending in assessments. As an

"All the nailers at work in this district are also sending in assessments. As an example, the assessments from Bellaire lodge in the two weeks alone, inst passed, was something over \$1,300. With such backing as this the nailers of this city stand firm and claim that each day their chances are growing brighter." MASTER LEON CILLIS will give an exhibi-tion of fancy and trick skating at the Island rink this evening.

WHAT IS SAID HERE. After seeing these statements yesterday an Intelligences reporter called at the headquarters of the United Nallers, Heaters and Rollers in this city, to see what could be learned on the subject. Secretary Chew was out of the city, but several members of the Executive Com-

several members of the Executive Committee were in the office.

Being asked what truth was in these reports, one of these gentlemen said:

"You can truthfully say this much, anyhow: that nobody has ever applied here for financial aid who didn't get it, and the treasury is not entirely empty yet."

Another added: "We are receiving money to enable us to carry on the strike, but we decline to name the source from which it comes. We have received contributions amounting as high as \$1.600 in the aggregate in one day. That is all we care to say on the subject."

General talk followed, in which all the nailers spoke very cheerfully of the outlook, and laughed at the idea of giving in. There is one feature of the strike which

There is one feature of the strike which has a bearing on the matter of outside support for the strikers. Of course if at the present stage of the strike, the manu-facturers of the West whose factories facturers of the West whose factories are now idle were to win, and the nailers return to work at the IT-cent scale, the Bellaire, Greencastle and other mills now in operation at the 21-cent scale would be compelled either to cut down wages, or if that could not be done, shut down, as they could not compete with mills in the same section working at lower wages. The mailers employed in these mills are therefore personally interested in preventing the triumph of the manufacturers. It is generally admitted also that a resumption of work here at 17 cents would mean a return to lower wages in the eastern mills.

ported that we had a meeting last week at the office of Shoenberger & Co., at which it was determined to issue a circular to the nailers with reference to inducing them to return to work at their terms. No such meeting was held, and there is no intention on the part of the Pittsburgh nail manufacturers to alter their original determination."

Old Time Nathers' Wages.

The Youngstown News has the following: Colonel Rowell Shurtliff, residing on Champion street, is one of the oldest nailers in the United States, having been engaged in the business for over forty years. Upon being asked concerning the price paid for making nails thirty years ago, as compared with the present, Colonel Shurtliff said: "The price paid for making 10d nails in 1854, west of the Allegheny mountains, was 20 cents per keg. At the same time the price for cutting 4d was 65 cents per keg. Just before the close of President Buchanan's administration the price of making 10d I do not remember, but the proportion would be 19 cents per keg. By this you will-see that the Western nail manufacturers are now trying to bring down the price of making nails lower than it ever was during the free trade administration of Pierce and Buchanan. Here is a letter writen by nails lower than it ever was during the free trade administration of Pierce and Buchanan. Here is a letter written by Jack Sourbeck, from New Castle, to me, June S, 1854, in which he gives the prices paid there for making nails. The prices read as follows: 3d, \$1; 4d, 65c; 5d, 50c; 6d, 40c; 7d, 33c; 8d, 24c; 9d, 22c; 10d, 20c. This was at the factory then running in New Castle, Pa."

Puddlers' Strike Averted

PITTSBURGH, Nov. 24 .- A secret meeting of the puddlers connected with the Ft. Wayne Iron Works, Zug & Co., Hussey & Wayne Iron works, Zug & Co., Hussey & Co., and Shoenberger's, was held to-day to take action upon a change of time in working hours made necessary by the introduction of natural gas. A general strike was strongly agitated, but it was finally decided to appoint a committee to wait on the manufacturers and ask for relief.
